---

---

---

5. Please describe outstanding architectural features. \_\_\_\_\_

---

---

---

6. Please detail any restoration or rehabilitation that has been performed on the exterior of the structure. \_\_\_\_\_

---

---

---

## Review Request for HHS Plaque

The purpose of an HHS Plaque is to commemorate the historic nature of a property or structure which is at least fifty (50) years old. Plaques are created after a review and approval of this Request by the HHS.

The review consists of comparing the house or structure with criteria as described in the City of Hollywood Design Guidelines for Historic Properties-May 2005, plus guidelines established by the Hollywood Historical Society.

At the bottom portion of the page, please respond to the below criteria items which you assess are applicable to your site: **1.)** Embodiments of distinctive characteristics of a type, period, or method of construction which would include integrity of location, design, setting, materials, and workmanship, **2.)** Possession of high artistic value, **3.)** Representation of a significant and distinguishable entity whose components may lack individual distinction, **4.)** Representation of the work of a master, **5.)** Yielding information on Hollywood's history.
